Elena Vasquez-Ruiz

elena.vasquezruiz@example.test | 555-0103 (fictional) | Maple Heights

SUMMARY

Information systems graduate with hands-on database and data quality experience. Skilled at writing SQL and cleaning inconsistent records. Beginning to learn Python.

EDUCATION

B.S. in Information Systems, Crestview University (fictional), 2025

SKILLS

SQL (MySQL), data cleaning, data validation, Excel (pivot tables, VLOOKUP), database design, basic Python (beginner)

EXPERIENCE

Data Quality Intern, Ashby Health Services (fictional), May 2024 - Aug 2024

- Wrote SQL queries in MySQL using joins, GROUP BY, and subqueries to identify duplicate patient-record entries.
- Cleaned and standardized over 50,000 records by correcting inconsistent name formats, removing duplicates, and flagging missing fields.
- Created a data validation checklist and documented cleaning rules for the team.
- Calculated simple averages and percentages in Excel to report data quality rates.

Project: Library Database (course project)

- Designed a relational database with five tables and wrote SQL queries to report on book loans and overdue items.

Project: Intro Python Course (self-study)

- Completed an introductory Python course covering variables, loops, and functions. Wrote a short script to print a list of overdue books from a sample list. No data analysis libraries used.
